Clark Forklift

Clark Forklift Forklift Training - At present, there are at least 350,000 Clark lift trucks performing worldwide, and in excess of 250,000 in service in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, duel fuel, gas, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 distinctive models of lift trucks, with parts covering more than 120,000 specialized components for all of its automated equipment. Your local Clark Seller is your total source for availability of all your parts needs offered by Clark Totalift.

Clark has a extraordinary Parts Distribution team. The parts warehouses are conveniently positioned in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their customers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Driven to offer the highest level of value and service to our users, Clark remains on the leading edge when it comes to enhancing productivity and benefiting performance.

Globally, Clark has one of the most amazing supplier support networks. With over 550 locations globally, seller representation in over 80 nations and 230 locations in North America, their high level of commitment to their clients predominates the material handling industry.

Clark proudly remains an innovative leader of the industrial equipment industry, revolutionizing protection features such as the worker restraint system. This exceptional commitment to safety is at this time a standard feature on every lift truck.

Clark's relentless effort to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck producer across the globe to be certified with the internationally accepted quality standard ISO 9001 for every one of their manufacturing plants. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any environmental limitations, thus placing them in a prevailing industry position.

Lean Production

Clark has selected the particularly economical and advantageous system of "Lean Manufacturing" for its assembly plants and use of resources. This system was established to acknowledge the most effective method of manufacturing plant stewardship and ensuring maximum efficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Engine Design

Clark's product engineers and suppliers join together to upgrade the effectiveness and brilliance of their merchandise while minimizing costs. The contemporary value engineering program combines progressive product growth and delivers improved customer support and service within the industry.
