

Richmond Hill Aerial Lift Train the Trainer

Richmond Hill Aerial Lift Train the Trainer - The train the trainer program designed for aerial lifts helps to teach the trainers how to safely train potential operators in an industrial surroundings. Trainers would be provided with in-depth instruction about the workings of aerial lift machines. The program is provided on an open enrollment basis and delivered at select training locations. Prior to certification, trainers are assessed and graded on their demonstrated skills and understanding.

The Aerial Lifts Train the Trainer Certification Program focuses on practical learning and as the best training provider in the business, we provide top notch hands-on training. We offer a lot of chances to practice the concepts and techniques which are taught inside the classroom. In addition to hands-on experience, trainers develop general knowledge of instructional methods and equipment theory, classroom and field communication skills, and ability to successfully train and assess operators. Trainers will gain an understanding of what traits make an effective trainer.

The Aerial Lift Train the Trainer Certification Program teaches the instructional methods included in communicating concepts within a classroom and/or field situation. Knowledge needs a training part to be efficient in workplace situations. There are three aspects of equipment operation that the trainer must learn how to convey to operators: what to do; how to do it; and why it needs to be done.

The program offers detailed, up-to-date reference material in order to help trainers convey the subject matter to equipment operators. Guidebooks include detailed information on all aspects of industrial mobile machine operator training. Included in the package are training aids which provide a visual reference to enhance the learning experience. The equipment-specific training products include essential materials meant for both the operator and the trainer: overhead transparencies, videos/DVD's, kinds of equipment, safety message posters; stability pyramids and digital training aids.
